Jelitto Seeds and Genetic Manipulation technology

Dear Sir

We would like to confirm that all of the seeds offered in our seed catalogue are the result of conventional seed breeding process and do not involve any GMO technologies. In October 2015 Germany signaled its move to ban the cultivation of GMO crops within its territory, see <http://www.reuters.com/article/germany-gmo-eu-idUSL5N1204FY20150930>

I trust this letter will satisfactorily answer your question on this matter.

Schwarmstedt, 28th of October 2016

Yours sincerely

Georg G. Uebelhart

General Manager
