Plant Description

*Life Cycle*  
Perennial

*Family*  
Asteraceae

*Origin*  
New Zealand

*Special Features*  
Large flowering.

*Basic Colour*  
(white / cream)

*Flower Colour*  
white

*Natural Flowering Period*  
June - September

*Winter Hardiness Zones*  
Z6 - Z9

*Growth Habit*  
cushion-forming

*Height with Flowers*  
10 cm

*Soil Requirements*  
well-drained / average

*Location*  
for the rock garden

*Cultivation*

*Grams per 1000 seeds*  
0.71429 Gram

*Seeds per Gram*  
1400 (does not correspond to the number of plants!)

*Gram to get 1000 plants*  
3 Gram (if sown directly into pots etc. you will need a larger quantity)
**Sowing Direction**

(3) These species usually show excellent results if sown soon after the harvest, although most of them only germinate in spring after the effect of winter. For best results please order seeds in time.

(15) Rapidly germinating, keep seed in constant moisture (not wet) with temperatures of about +20°C [68°F]. Seeds must be covered thinly. Do not cover very small seeds, but tightly press into the earth. Keep in cooler conditions after germination occurs.
