### Plant Description

|                                 |                                                                                     |
|---------------------------------|-------------------------------------------------------------------------------------|
| <b>Life Cycle</b>               | Perennial                                                                           |
| <b>Family</b>                   | Polygonaceae                                                                        |
| <b>Basic Colour</b>             | (red / scarlet / purple)                                                            |
| <b>Flower Colour</b>            | reddish                                                                             |
| <b>Natural Flowering Period</b> | May - August                                                                        |
| <b>Winter Hardiness Zones</b>   | Z5 - Z8                                                                             |
| <b>Foliage</b>                  | bronze-red foliage in fall                                                          |
| <b>Height with Flowers</b>      | 150 cm                                                                              |
| <b>Soil Requirements</b>        | boggy                                                                               |
| <b>Location</b>                 |  |
| <b>Usage</b>                    | water or marshplant                                                                 |

### Cultivation

|                                |                                                                                                                                                                                                                                                                |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Grams per 1000 seeds</b>    | 3.125 Gram                                                                                                                                                                                                                                                     |
| <b>Seeds per Gram</b>          | 320 (does not correspond to the number of plants!)                                                                                                                                                                                                             |
| <b>Gram to get 1000 plants</b> | 15 Gram (if sown directly into pots etc. you will need a larger quantity)                                                                                                                                                                                      |
| <b>Sowing Direction</b>        | (15) Rapidly germinating, keep seed in constant moisture (not wet) with temperatures of about +20°C [68°F]. Seeds must be covered thinly. Do not cover very small seeds, but tightly press into the earth. Keep in cooler conditions after germination occurs. |
