Gram to get 1000 plants

100 Gram (if sown directly into pots etc. you will need a larger quantity)

Sowing Direction

(20) To obtain best germination results, seeds need temperatures of +22°C [72°F] or more. Moderate, but constant humidity is very important. Gunnera, however, prefers very moist (not wet) and warm (+24 to +30°C) [75 to 86°F] conditions.
