Plant Description

Life Cycle	Perennial
Family	Crassulaceae
Origin	Iran, Caucasus
Special Features	Versatile sedum species for groundcover (evergreen in milder climates). The foliage may turn a brownish-red color in the autumn in full sun. Great planted around a stone walkway, or in a rock wall.
Basic Colour	(pink / salmon)
Flower Colour	dark pink
Natural Flowering Period	July - September
Winter Hardiness Zones	Z5 - Z9
Foliage	very narrow, paddle-shaped, leaves spiral around
Growth Habit	stoloniferous / mat-forming
Height with Flowers	15 cm
Spacing between Plants	25 cm
Soil Requirements	dry / well-drained / average
Location	
Characteristics	groundcover
Usage	for the rock garden / for green roofs

Cultivation

Grams per 1000 seeds	0.05 Gram
Seeds per Gram	20000 (does not correspond to the number of plants!)
Gram to get 1000 plants	0.5 Gram (if sown directly into pots etc. you will need a larger quantity)

Sowing Rates/Trays	7 per cell
Plug tray recommended size(s)	128 / 288
Sowing Direction	(4) These are very tiny seeds which should be mixed with finest sand or talcum for an even sowing. Do not cover with compost, only press them in gently. Irrigate from the bottom or with a hand-sprayer, so that the seeds will not be washed away. (16) See 15 with the exception of germination being slower and more irregular. This poses no problems. (15) Rapidly germinating, keep seed in constant moisture (not wet) with temperatures of about +20°C [68°F]. Seeds must be covered thinly. Do not cover very small seeds, but tightly press into the earth. Keep in cooler conditions after germination occurs.

Scheduling

Best Sowing Date	Anytime (northern Hemisphere, Field condition)
Sowing to Germination	3 - 4 weeks
Germination to Transplant	4 - 6 weeks
Transplanting to Potting	6 - 10 weeks

Growing On

Container Size(s)	1 plug per 8/9 cm (3 1/2") / 1-2 plugs per 11/12 cm (4 1/2")
Fertilizer	Light (100-150 ppm)
