Plant Description

Life Cycle	Perennial
Family	Papilionaceae
Special Features	Flower clusters.
Basic Colour	(yellow / gold)
Flower Colour	yellow
Natural Flowering Period	June - July
Winter Hardiness Zones	Z5 - Z8
Height with Flowers	125 cm
Soil Requirements	dry / average
Location	

Cultivation

Grams per 1000 seeds	8.33333 Gram
Seeds per Gram	120 (does not correspond to the number of plants!)
Gram to get 1000 plants	20 Gram (if sown directly into pots etc. you will need a larger quantity)
Sowing Direction	(10) For these bigger hard-shelled seeds, mechanical damaging of the shell is helpful for quicker swelling. One method is to grind the seed in dry sharp sand. They can also be treated for several hours in a “softener” (Polyethylenglycol 6000), which is used for the production of plastic material.
