Plant Description

| | |
|---------------------------------|---|
| Life Cycle | Perennial |
| Family | Papilionaceae |
| Basic Colour | (yellow / gold) |
| Flower Colour | light yellow |
| Natural Flowering Period | June - August |
| Winter Hardiness Zones | Z3 - Z8 |
| Growth Habit | stoloniferous |
| Height with Flowers | 75 cm |
| Soil Requirements | dry |
| Location |  |

Cultivation

| | |
|--------------------------------|---|
| Grams per 1000 seeds | 11.11111 Gram |
| Seeds per Gram | 90 (does not correspond to the number of plants!) |
| Gram to get 1000 plants | 20 Gram (if sown directly into pots etc. you will need a larger quantity) |
| Sowing Direction | (10) For these bigger hard-shelled seeds, mechanical damaging of the shell is helpful for quicker swelling. One method is to grind the seed in dry sharp sand. They can also be treated for several hours in a "softener" (Polyethylenglycol 6000), which is used for the production of plastic material. |
