

Dear Customer!

For the coming season we have compiled some new varieties for you which we would like to take the opportunity to introduce. All these new introductions can also be found in our web shop – www.jelitto.com.

The 2018/2019 catalog is of course, still valid until the end of 2019.

Should you need an additional catalog or purchase order form, please contact us. We will be more than happy to send you these.

With best wishes – Your Jelitto Perennial Seed Team

KNAUTIA macedonica 'Midget Mauves'

The ruby-red flowering pincushion-like plant, *Knautia macedonica*, is a tried and true easy-going perennial gracing any border or natural planting. Its unusual flower color and robust habit makes it a favorite summer color addition to the garden. In 2002, the Jelitto breeding program introduced a compact form of the species called 'Mars Midget' ...growing half the size, making a sturdier plant! 'Mars Midget' has been valuable and easy to propagate for perennial growers and gardeners alike.

Welcome '**Midget Mauves**'! Jelitto's latest Knautia breeding effort has produced not only compact plants (40cm/16inches tall), but beautiful pinky-purple-mauve colored flowers! The widely branching flowering stems are topped with dozens of floating 5cm (2inches) wide lavender-amethyst gems that sparkle from June through October. Knautia grows well on lean soils in sun or partial shade. The pincushion family of plants are known for their harmonious relationship with butterflies and other pollinators. 'Midget Mauves' is no exception and is a good pollinator food source.

Hardy in Zones 5-10, first year flowering 'Midget Mauves' is happy in the rock garden, border, container, or in a designed plant community providing summer and late summer color. Grow together with Agastache, Penstemon, Monarda, Festuca, Petalostemon, Echinacea, Pennisetum, Aster etc. and, 'Midget Mauves' branching stems are wonderful additions to bouquets!

Perennials		Gram to get 1000 plants	No. of the sowing directions	Special Hints	Prices in EURO net per:
